## ➤ changes your life

by changing the way  
you look at TV.

## ➤ TiVo changes everything.

### Changes the way you watch shows

A TiVo DVR completely changes the TV experience. All of your favorite shows are organized into a Now Playing list, neatly-labeled and ready-to-watch. You can record one show while you watch another. You can pause live TV to answer the phone and quickly rewind or fast-forward through the dull parts. It's magic.

### Changes the way you find shows

Your TiVo DVR lets you search by favorite actor, category, or keyword. You can even record an entire season of a TV series with a single click. If the network moves a show, the TiVo Season Pass™ feature automatically changes course and records it.

### Changes where you watch shows

With the TiVoToGo™ feature, you can transfer TV shows to your laptop, iPod, or PSP and watch your favorite show in the garden or on an airplane.

### Changes where you schedule recordings

If you're at work and want to add a show to your Now Playing list, just hop online and use the Online Scheduling feature to set last-minute recordings.

### Changes what your kids watch

TiVo service also includes our TiVo KidZone™ feature, a set of premium parental controls that let you choose smart, sensible shows for your children.

#### TiVo Wireless G USB Network Adapter

Plug in the TiVo wireless adapter to a Series2 box and you're broadband-ready. Once connected to your home network, the TiVo service delivers digital music, photos and internet videos to your TV.
