## Your experience, powered by TiVo, on any TV

Now your lowest-cost box can deliver a feature-rich user experience powered by TiVo on every TV. The MSO-branded Evolution Digital HD uDTA is a one-way DTA served by a traditional data carousel which provides a UI experience consistent with the TiVo STB. It provides a low-cost solution for operators looking to extend TiVo service to second and third TVs with a guide and navigation experience not normally seen on DTA devices. Additionally, it's an extremely compact device able to fit on top, beside or behind the TV.

### Product Overview:

- Grid Guide and Mini-Guide with 16-20 hours of data
- Channel Banner
- Operator UI branding
- What to Watch (recommended shows)
- Upsell promotions
- Field Software Updates
